

### Setting Instruction Unitas

**Thank you for purchasing an original ZENO Timekeeper. To ensure correct use, please read these instructions carefully:**

ZENO-WATCH BASEL Hand Winding Series

Mechanical with manual winding

Shock-resistant Anti-magnetic

Steel case Sand-Blasted

Hardened Mineral Crystal (F16155; with hardened acrylic)

Ref: 6558, 8558, 8000 Series

Water-resistant 3ATM with UT-6497 17 Jewels

See-through back

Ref: EA-02 Series Water-resistant 10ATM

Ref: F16155 Series Water-resistant 5ATM

**Your ZENO Series is manufactured with a high quality mechanical wind movement.**

**Do not operate crown when the watch is wet or in water.**

#### **WINDING**

Wind up the crown clock-wise gently until it stops; do not overwind.

Wind up once in one day.

#### **SETTING TIME**

Pull the crown.

Turn the crown either direction to move hands forward or back.

Push the crown to the original position after you finish setting the time.

**EA-02 and F16155:** Open the screw on crown cover

Before winding or setting and close the crown cover after winding or setting.

**Please be sure to check the ZENO-WATCH internet Web site for the latest listing of World Wide Service Centres at [www.zeno-watch.ch](http://www.zeno-watch.ch)**
